Course Policies

Attendance

Attendance is necessary and the attendance policy found in the NEMCC Student Catalog will be followed. The maximum number of absences allowed for any student shall be the equivalent of two weeks of class (two total absences). Students will be **cut out** of the course upon the **third** absence. It is understandable that extenuating circumstances occur, such as an extreme illness, death in the immediate family, legal matters, or military duty. It is the student's responsibility to provide appropriate documentation in a timely manner (prior to the due date if all possible) to substantiate such circumstances.

If a student has excessive absences and is cut out of the class, a fee of \$10 will be assessed to be reinstated in the class.

Students are required to attend all classes. Absences from class should be the result of unavoidable circumstances such as sickness, family deaths, hazardous road conditions, and so forth. Excused absences are those incurred as a result of attending a school sponsored activity or short term military active duty. Any other absence is classified as unexcused. Students who are absent from class more than 14% (two weeks) of the scheduled class meetings will be reported to the Records Office for excessive absences and will be cut out of the class. Students wishing to be reinstated to the class must contact the instructor to begin the reinstatement process. Cut Outs that are not reinstated or withdrawn will be converted to F's at the end of the semester.

Academic Honesty

Academic honesty is a fundamental attribute of higher learning. Students who violate the principle of honesty deny themselves an opportunity to master the skills that they are credited to possess, cheat their classmates of deserved recognition, and demean the college and its degrees. It is a matter of great concern that all members of the college community strive for high standards of personal integrity.

Evaluation of each student's level of knowledge and understanding is a vital part of the teaching process, and requires tangible measures such as reports, examinations, and homework. Any act that interferes with the process of evaluation by misrepresenting the relationship between the work being evaluated and the student's actual state of knowledge is an act of academic dishonesty. These acts of dishonesty include but are not limited to: fraud, cheating, plagiarism, forgery, and facilitating dishonesty.
